AI-PMS: The Structured Framework for AI-Driven Project Delivery

Version 1.0 - (C) 2025 Brian W. All rights reserved.

Contact: BrianWBuilds.PM@gmail.com

Overview:

AI-PMS is a structured, practical framework tailored for project managers overseeing AI and machine learn

Phases:

1. Initiate - Feasibility, data audit, stakeholder alignment

2. Plan - Success metrics, risks, adaptive timelines

3. Build - Data pipeline, training cycles, reproducibility

4. Validate - Accuracy, fairness, explainability

5. Deploy - Production readiness, monitoring, rollback planning

6. Maintain - Model drift monitoring, retraining, compliance

Included in this Release:

- Full Initiate Phase (PM deliverables, agent prompts, templates)

- Framework Roadmap and Governance Checkpoints

- AI-PMS Lite variant for startups

- IP License and Attribution Notice
